WORK HISTORY

Jan 2011   **Systems Tester**
to   *i-design*
Feb 2011   *Dundee*

This was a temporary position which lasted for approximately three weeks. I worked within a small team that was tasked with finding faults in software before its release.

- Role involved working with fellow system testers and development team in order to decide relevant tests and report results.
- Demonstrated ability to work to a deadline by completing all assigned tests on time.
- Gained experience of working both on my own and within a group.
